

OFFICE 365™ IS GOOD, BUT MAILMETER MAKES IT BETTER

MAILMETER CLOUD

MailMeter Cloud is a next-generation unified eDiscovery, archiving, and compliance solution for Microsoft Office 365™ and Gmail. MailMeter Cloud is fully hosted in Microsoft GDPR Compliant Azure Data Center (or we can deploy on-premise) and enables organizations to gain full control of their email compliance archiving requirements. We enable you to maximize your existing investment in Office 365™ or Gmail while filling the compliance gap for users with a cost-effective alternative to more expensive plans. So, whether you are moving to, or already on Office 365™ or Gmail, MailMeter Cloud will eliminate the complication and cost of holding onto inactive mailbox licenses through our History Capture, as well as importing any legacy PST or MBOX files.

ALREADY HAVE OFFICE 365 OR GMAIL? WE CAN HELP.

Enhance Office 365™ or Gmail: Unlock the full potential of Office 365™ and Gmail with MailMeter. Our Email Archiving Solution safeguards your data and reputation more cost-effectively. MailMeter Cloud streamlines data management, protection, and retrieval, ensuring efficiency and compliance. Moving to the cloud, whether Office 365™ or Gmail, entails crucial considerations like security, data integrity, and business continuity. Protect your organization with a 3rd-party solution to avoid exposure.

WHY MAILMETER CLOUD

COST EFFECTIVE:

MailMeter Cloud is a cost-effective addition to your O365 subscription, eliminating the need for pricey compliance add-ons. Use your existing licenses until necessary.

AVOID SINGLE VENDOR DEPENDENCY

MailMeter will provide you with a separate repository for eDiscovery outside of your email tenant.

SIMPLICITY

Our motto is 'keep it simple.' We prioritize simplicity in our approach, deployment, support, and product usage. Unlike overly complex systems, we ensure your comfort and ease of use. Our goal is to provide efficient, user-friendly access to your data.

MAILMETER AND O365 SEARCH & COMPLIANCE COMPARISON

We offer a detailed document comparing MailMeter and O365 search and Retention Policy setup, highlighting the challenges of quick data access in O365.

'ONE SIZE DOES NOT FIT ALL'

Mix and match O365 licenses to your business needs. MailMeter archives all messages regardless of O365 license, ensuring full eDiscovery and compliance without costly upgrades.

MY MAILMETER

End-users can quickly, easily, securely & remotely search their email in the archive for any email they have ever sent or received, even if deleted in mailbox.

MANAGE DATA GROWTH

MailMeter automates archiving, reducing O365 storage costs. Apply a strict O365 retention policy (1, 2, or 3 years) while using MailMeter as your secure GDPR archive.

RETENTION MANAGEMENT

Protect individual messages from deletion. In addition to putting a hold on a user or users, you can just hold specific messages through the use of 'tags'.

SECURITY

Tamperproof archive to ensure integrity.

MANAGED SERVICE

We do not just provide you with the Software, we provide the tool-set to completely manage email and file Data with the support of our team of Data Management experts.

- Installation, Implementation and Setup
- Project Management
- Future Planning Collaboration
- FOI and eDiscovery Assistance
- Dedicated Account Management Team
- Real-Time 24x7 Monitoring
- Extended Support Hours

"I've been extremely grateful for all the support the team has given over the past few months, with special thanks to Kevin who supported me on Xmas Eve, Rory in the last few weeks for the retention and space issues, and finally Mark and Paul in helping me get through our e-discovery. MailMeter has played an integral role in the council's ability to organize, securely store and find historical email".

Paul Quinn
Dunlaoghre Rathdown, County Council

MAILMETER CLOUD IS SECURE

MailMeter will capture, encrypt, compress and digitally stamp all emails in real-time and provide file indexing, enabling business intelligence. MailMeter ensures a tamper-proof archive containing a legally compliant copy of all emails to maintain integrity. MailMeter & SISCIN runs in GDPR Compliant Microsoft Azure Data Centers. Encrypted communications between Office 365™ and MailMeter Cloud. Real-time 24x7 monitoring by ComplyKEY Team.

**Runs in GDPR Compliant
Microsoft Azure Data Centers**

**Encrypted communications

and MailMeter Cloud.**

Real-time 24x7 Monitoring

SSL Web Access

"MailMeter is considerably faster at searching emails as opposed to the in-built search within outlook, and that is the most important thing when searching emails... speed"

Noel Galligan, IT Manager
Pobal
